

Strategic Risk Management Fundamentals

An 8-Part GKG University Course Built for Safety, Risk, HR & Operations Leaders
Ready to Build More Proactive, Resilient Organizations

What You'll Learn

Learn the strategies, frameworks, and best practices used by high-performing organizations to identify risk, reduce loss, strengthen culture, and drive long-term results. By the end of this course, you'll be able to:

- Break down silos and view risk through an enterprise-wide lens.
- Build employee engagement and accountability around safety and risk initiatives.
- Turn risk management into a strategic advantage that supports business goals.
- Identify your organization's key risk drivers and develop a practical action plan to address them.

Put Learning Into Action

Participants will complete a capstone project focused on one of their organization's most significant risks and leave the course with a practical action plan ready to implement.

Investment

You don't have to be a GKG client to participate in this course!

GKG Client Tuition: \$2,500 **Community Tuition:** \$5,000

Space is limited!
Register by October 7.

What Our Graduates Are Saying:

"[This course] changed the way I think about risk. Instead of viewing risk management as simply preventing accidents or reducing claims, it showed how culture, leadership, and employee engagement all play a critical role in creating a safer, stronger organization."

Samantha Serway, Director of Human Resources, S.R. Sloan Inc.

Earn Your Leader in Strategic Risk Management™ Certification

Upon successful completion, participants earn GKG's Leader in Strategic Risk Management™ certification, demonstrating proficiency in key areas including:

- Safety leadership and culture
- Total Cost of Risk™ (TCOR)
- Workers' compensation strategies
- Risk communication & benchmarking
- Cyber risk management
- Incident investigation & root cause analysis
- Employee benefits & workforce retention
- OSHA compliance fundamentals
- & more!
